TOP TIPS

- The most effective way to remove hair is to work in the opposite direction from which it grows. In places where hair grows in different directions and in hard to reach areas, it is helpful to pull the skin slightly, making it more taut and eliminating natural creases and folds.
- The chemicals in deodorants and some moisturisers can sting your skin, so wait at least half an hour after treatment before applying.
- Do not use immediately after a bath or showering. Ensure your skin is completely dry before use.
- It is a good idea to use Rio Precious Legs™ in the evening in case any redness occurs after treatment.

DISPOSAL

Electrical and electronic waste is the fastest growing waste stream in the UK. Around 1.8 million tonnes are generated every year. The Waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling techniques to minimise the impact on the environment, treat any hazardous substances and avoid the increasing landfill.

The product is classed as Electrical or Electronic equipment so please ensure that at the end of the life of this product it is disposed of in the correct manner in accordance with local authority requirements. It must NOT be disposed of with household waste.

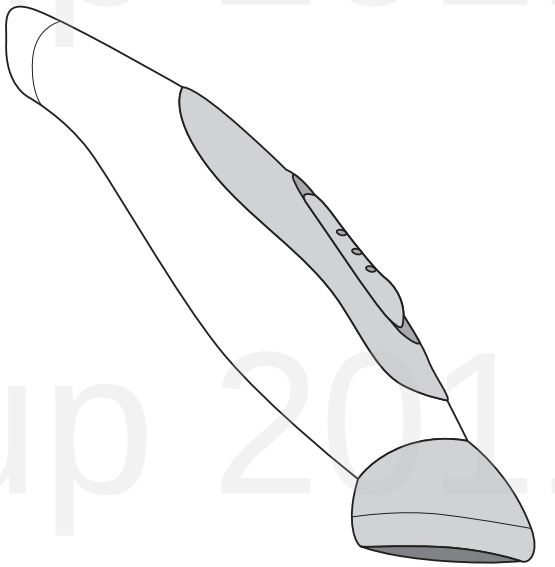
PRECIOUS™ LEGS



With Rio Precious Legs™ you can have the very smoothest legs possible using micro-dermabrasion technology.

Micro-dermabrasion both exfoliates the skin and removes unwanted body hair as close to the hair follicle as possible, ensuring the result is as smooth as silk.

Precious Legs avoids both the nicks and cuts of razors and the painful plucking of mechanical epilators. You can even use your Precious Legs for daily touch-ups if required, it is that easy to use.

PRECAUTIONS

- Please read instructions carefully and retain for future reference.
- Do NOT use on broken skin, rosacea, eczema, over moles or growths, or any other skin ailment. It is recommended that you consult a doctor if you are unsure. Discontinue use in the event of irritation.
- Do NOT remove hair from moles or areas of sunburn or abrasions.
- Do NOT use on face or neck area.
- For external use only.

PATCH TEST

Carry out a patch test on a small area of your skin 24 hours before use. If irritation occurs discontinue use.

IMPORTANT

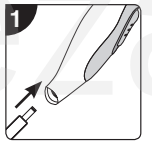
Do not use within 30 minutes after having a bath or shower. Surface moisture remaining on the skin may clog up the micro-dermabrasion disc resulting in the treatment not being effective.

CARE INSTRUCTIONS

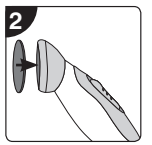
- Do not immerse unit or discs in water.
- Throw away used and worn discs.
- Do not use Rio Precious Legs™ for any other purpose than intended.
- There are no user serviceable parts in your Rio Precious Legs™. Do NOT attempt to open the unit.

USING PRECIOUS LEGS

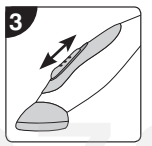
Please Note: Some people may experience a slight redness. This is quite normal and will fade within an hour or two after treatment. Before starting clean the treatment area using soap and water. Ensure that your skin is completely dry. Please pay particular attention to steps 4 and 5.



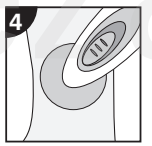
Attach the power lead and plug into power socket.



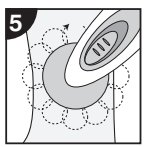
Attach a micro-dermabrasion disc. Press on firmly.



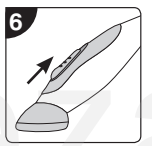
Push the slide button up once for clockwise rotation and down once for anti-clockwise rotation.
The most effective way to remove hair is to work in the opposite direction of hair growth.



Bring the disc gently into contact with the skin keeping it fairly flat. The ideal pressure will only cause the motor to slow slightly and you will feel a tingling sensation. If you are removing a lot of hair the first treatment may take some time.



Use a circular motion and work against the direction of hair growth.



Once you have finished turn the control unit off. Wipe over the treated area with a tissue or damp cloth.

Occasionally you will need to replace the disc. As a general rule, four discs should sufficiently treat one leg, and two per arm.

YOUR QUESTIONS ANSWERED

Can I use Rio Precious Legs™ on all areas of my body?

Rio Precious Legs™ is designed specifically for body hair, but not for facial hair. Do not use on your face or neck.

Can I use any ointment or lotion on my skin after treatment?

We do not advise using perfumed moisturisers as these may irritate your skin causing redness. unperfumed, soothing lotions may be used.

Do I need to exfoliate first?

No. Rio Precious Legs™ is designed to act as an exfoliator as well as a hair remover. Its micro-dermabrasion technology removes all dead skin during treatment, leaving your skin feeling soft, silky and looking radiant.

It isn't removing very much hair, why?

You are applying too much pressure. You must bring the disc GENTLY onto your skin. The ideal pressure will only cause the motor to slow slightly and you will feel a warm tingling sensation. Applying too much pressure will greatly reduce the effectiveness of exfoliation and hair removal. The motor is geared to either stop or slow significantly if too much pressure is applied. If you are removing a lot of hair the first treatment may take some time.

Are you working in the same direction of hair growth? The most effective results will be achieved by working in the opposite direction of hair growth using a circular anti-clockwise motion.

What is the difference between shaving and using Rio Precious Legs™?

Unlike traditional razors Rio Precious Legs™ actually exfoliates the skin, removing dead skin. This allows the micro-dermabrasion disc to remove the hair closer to the hair follicle, hence weakening the hair and reducing the speed at which it grows back, so your skin will stay smoother for longer.
